No wonder they bought the home.
It has everything our research shows she's looking for.
We know when she falls in love with the kitchen their purchase intent skyrockets. How can we be so sure? Our research confirmed it. In fact, Merillat leads the industry in studying how homebuyers shop and live in new homes. We never stop looking for new ways to transform our proprietary information into better kitchen designs and better model home merchandising. Because it's these insights and tools that make our builders' homes irresistible to homebuyers.
Interaction in kitchens that use our research-based insights.

Brand Used Most

Trex® Decking And Railing Are Number One Among Readers...

Shouldn't It Be Number One With You?

Trex® is the leading brand of alternative decking, railing and fencing products. Made from a unique combination of recycled wood and plastic fibers, **Trex®** products have all the natural beauty of wood, without the rotting and splintering, for a low-maintenance product that offers lasting comfort and beauty.

Best of all, **Trex®** Decking and Railing offer integrated solutions that complement one another and provide a wide array of design solutions. Its style options include not only the ability to physically bend and shape, but also a wide variety of colors and textures from which to choose.

A Full Line Of Decking Materials

Trex® offers decking products in a wide range of textures and patterns to fit any style and taste. Choose from the exotic hardwood look of Trex Brasilia®, the rustic woodgrain pattern of Trex Contours®, the subtle woodgrain and two-sided finish of Trex Accents®, the unsurpassed stain and scratch resistance of easy-care Trex Escapes® or the smooth, contemporary look of Trex Origins®.

For versatility, builders choose the Trex Accents® line with grooved boards and the exclusive Trex Hideaway® Hidden Fastener system. Trex Accents® boards are reversible, offering two distinct textures—a subtle wood grain pattern on one side and a smooth, refined look on the other—and a full range of authentic natural colors. The exclusive Trex Hideaway® Hidden Fastener system allows for a beautiful, fastener-free finish across the entire deck surface.

Complementary Railing Systems Complete The Package

A **Trex®** deck is not complete without Trex Railing. The two go hand-in-hand, working as a team to create your perfect outdoor experience. Trex Railing is available in many colors, styles and shapes to enhance each deck's design, while adding the same durability, strength and timeless beauty expected of Trex Decking. An easy-to-install, modular system saves time on the job while providing the same low-maintenance guarantee to homeowners.

In addition, all **Trex®** Decking and Railing deliver with a 25-year, limited residential warranty for your homeowner customers. It's no wonder **Trex®** consistently ranks as the number one wood alternative decking manufacturer among builders everywhere.

Genuine Trex

WE SINCERELY APOLOGIZE.
When customers see our industry-leading range of best-in-class decking design choices, it can take a while for them to make a decision. And we can't help but feel at fault. Take the ultra low-maintenance line of Trex Escapes® — it's yet another option from our already long list of options. With soap and water clean up, unbeatable scratch, stain and impact resistance, and a rich, long lasting natural wood grain appearance, it's also another answer from our already long list of answers. And because more homeowners ask for Trex® than any other brand, we've got a question for you — you won't mind being a little busy for a long while, will you?

AdvanTech® Flooring #1 In Quality 8 Years In A Row!

Quality

That's right, **AdvanTech® flooring** is ranked as the leading brand of quality flooring in BUILDER magazine's annual Brand Use study, for the 8th consecutive year!

That's no accident. **AdvanTech flooring** offers better performance on all levels… It has greater water resistance, strength and durability than other OSB and plywood products. In fact, **AdvanTech flooring** is so confident in its superior advantages, it offers a 50-year transferrable limited warranty.(1)

FLAT OUT BEST™ For A Quiet, Stiff Floor

With a long list of advantages **AdvanTech flooring** can help reduce squeaks and bounce and moisture-related construction delays better than other products on the market.

- Made with advanced resin technology so each panel achieves one of the lowest water absorption levels in the industry, minimizing warping, cupping and edge swell.
- High panel density ensures each panel delivers outstanding bending strength, stiffness and fastener holding power.

Now—Even Better Than Before!

AdvanTech flooring's improved fastening guide, which will soon hit the market, makes installation even easier than before.

- New fastening guide makes installation more accurate.
- Bi-lingual panel instructions ensure 1/8" gap between panels.
- More space provided to write instructions on panels.
- SFI logo heralds continued commitment to the environment.

New Web Site Says It All—
AdvanTechPerforms.com

Our new web site provides more information on why **AdvanTech** products are the FLAT OUT BEST™ choice for builders.

- Get complete product information.
- Compare **AdvanTech flooring** to the competition.
- Learn about rebates and incentives.
- Receive all the info you need to start using AdvanTech products today!

Join the thousands of successful builders who have already discovered the numerous benefits of **AdvanTech® flooring**.

AdvanTech products for superior value and priceless peace of mind.

PRODUCTS IN PRINT

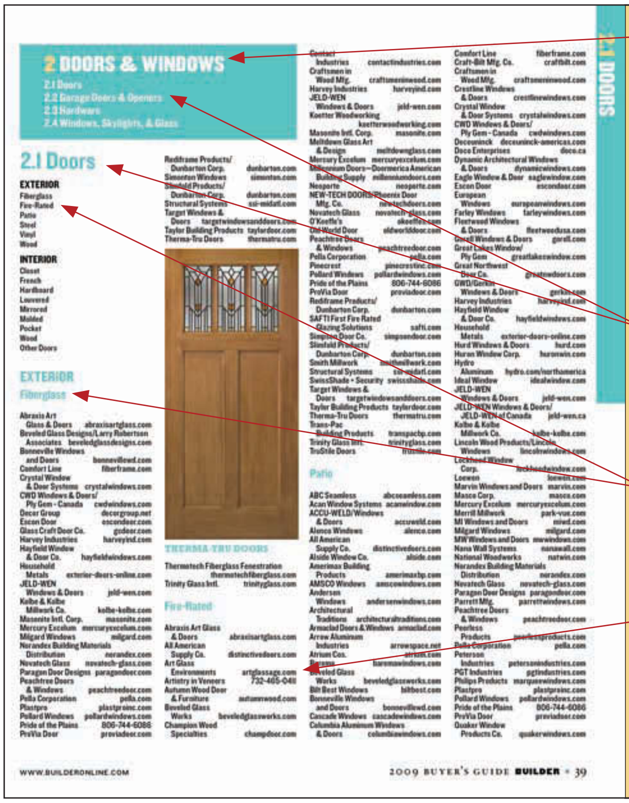
James Surowiecki, a *New Yorker* magazine staff writer who covers business and finance, recently wrote a column in which he posited that in a recession (or a depression) companies that invest in advertising, research, and technology perform better after the downturn than those that cut spending and hunker down. Who knew?

The theory seems counterintuitive at first, but it really makes perfect sense: While everyone else is standing still, the smart ones move forward. This could be a cautionary tale for builders. Sure, the overall economy is bad and the housing market is dismal, but that doesn't mean you should stop learning, researching, and finding out about new products and systems. BUILDER's *2009 Buyer's Guide and Web Directory* can help.

The issue you hold in your hands is chock-full of information that can help you find the products you're looking for. From stained glass inserts for kitchen cabinet doors to copper countertops, the answers are here at your fingertips.

And it's easy as pie. In the main section of the book, the Product Guide (starting on page 31), lists products in nine "supercategories" (for example, supercategory 5, Finishes & Surfaces). Within these nine supercategories, products are sorted under main categories (such as category 5.1, Countertops) and then into specific product types (such as Laminate or Solid Surfacing). Everything you need can be found within these three levels. The Product Guide listings include manufacturers' Web sites rather than their phone numbers so you can obtain preliminary product information on the Internet. If you prefer to contact a product maker by phone, you can find our Manufacturer Directory online at www.builderonline.com/toc/archive/2009.aspx, where we list the phone numbers and Web addresses for all the manufacturers in the guide.

The popular "Favorite 50"—a list of the 50 products readers were most curious about in 2008 (page 26)—is back again, as is the "Brand Use Study" (page 19) of the products builders trust and use most often. So, check out the *Buyer's Guide* and then keep it handy. You never know when you'll need it.—*Nigel F. Maynard*



Supercategories: To make your search easier, we've divided our guide into departments, or supercategories. There are nine color-coded supercategories designed to make it simpler for you to find the manufacturers that make the products you need.

Main categories: Under each supercategory, you'll find our main categories. Each comprises a specific group of products.

Products: Each main category is broken down into individual product types.

Listings: Under each product heading is a list of applicable manufacturers and their Web sites.

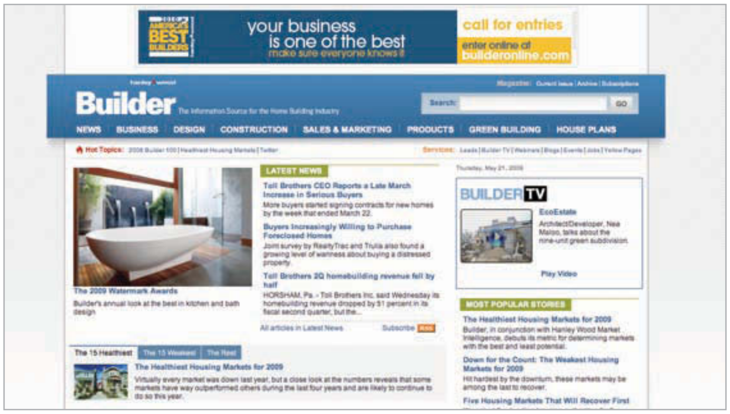
PRODUCTS ONLINE

As you'll soon find on the following pages, the issue you're holding is an invaluable reference tool for finding which manufacturers make what in the world of building products as well as how to contact them. But if you go online to Builder's sister Web site, ebuild.com, you'll find even more product information in a sortable, searchable format.



Ebuild continues to evolve as its editors strive to make the site a more efficient, useful tool for home building professionals like you. During the past year, ebuild expanded rapidly to include:

- More than 14,000 manufacturers, listed alphabetically and by category;
- Nearly 3,000 searchable manufacturer full-line catalogs and product brochures that allow you to sort by product or detail;
- More than 600 new product announcements direct from manufacturers during the past year;
- Thousands of news and feature stories about products and materials from Builder, Remodeling, Building Products, Journal of Light Construction, Residential Architect, Custom Home, and other Hanley Wood publications.

You can find a link to the ebuild homepage in the "Products" section of Builder Online (www.builderonline.com/products/) or by going directly to the site (www.ebuild.com).

Want information about new products delivered straight to your e-mailbox? Sign up for ebuild's "New Product News," a free, twice-weekly e-mail newsletter that contains product stories from many sources, press releases from manufacturers, and video coverage from industry trade shows and events. Subscribe to "New Product News" (or any other Hanley Wood e-mail newsletters) by pointing your browser to http://hanleywood.sparklist.com/subscribe/profile.

And there's more! For insightful coverage of green products, trends, and construction techniques, visit Builder Online's extensive section devoted to these topics (www.builderonline.com/green-building/). For even more comprehensive coverage of green building, including breaking news, new product introductions, legislative updates, case studies, and a roundup of green news from North America, visit Builder Online's sister site, www.ecohomemagazine.com. You also can sign up for the weekly Eco-Home Update e-newsletter on the Web site's homepage.

OTHER ONLINE RESOURCES

There are a number of other Hanley Wood Web sites that offer invaluable product information. Besides Builder Online, they include:

Professional-Grade Tools. Tools of the Trade Online (www.toolsofthetrade.net) is the pro's best source for unbiased, hands-on reviews of new tools. You'll find all of the magazine's recent tool tests, organized by category, plus feature articles, industry news, and links to the magazine's annual truck report and Editors' Choice Awards.

Concrete Masonry Products and Manufacturers. Hanley Wood's magazines and Web sites covering concrete and masonry—Concrete Construction, Masonry Construction, and The Concrete Producer—share a common source for information on products specific to their industries, aptly named "Industry Sourcebook." You'll find a link to it on the homepage of any of these sites: www.concreteconstruction.net, www.masonryconstruction.com, and www.theconcreteproducer.com.

UPlink // FOR MORE PRODUCT INFORMATION, VISIT EBUILD, HANLEY WOOD'S INTERACTIVE PRODUCT CATALOG, AT WWW.BUILDERONLINE.COM/PRODUCTS OR EBUILD.COM.

DuPont Chosen As Brand Leader In Builder Survey

In BUILDER magazine's annual brand preference survey of readers, **DuPont**™ Tyvek® weather barriers won every award in the housewrap category. These specially engineered weather barriers are just a few of the many innovative products that are part of **DuPont** Weatherization Systems—a complete portfolio of integrated products that work together in every climate and in every type of home construction.

DuPont Weatherization Systems
From specialized wraps to flashing and fasteners, we offer everything you need to help you seal the building envelope, providing superior protection against a home's worst enemies—water, trapped moisture and air infiltration. **DuPont** Weatherization Systems help you create more comfortable living spaces that are also more energy efficient. Homes stay cooler in the summer, warmer in the winter and drier all year long, helping homeowners better manage their energy usage.

DuPont Building Innovations
In addition to sweeping the housewrap category, **DuPont** Building Innovations was honored by having two other products in its portfolio chosen as Brand Leaders in the solid surfaces and quartz surfaces categories. **DuPont**™ Corian® solid surfaces were ranked number one for: Brand Familiarity; Brand Used in Past Two Years; Brand Used Most; and Quality. **DuPont**™ Zodiaq® quartz surfaces were recognized for Quality. As decorative surfaces for residential kitchens and baths, Corian® and Zodiaq® offer lasting beauty, superior performance and endless design options.

At **DuPont** Building Innovations, we are committed to using our dynamic science and expertise to help you build sustainable homes that are easy to love. You can rely on **DuPont** to continue to deliver products that will earn your vote as brand leaders.

PRODUCT PLACEMENT

BUILDER's 2009 Brand Use Study unveils builders' favorite product brands.

THE 2009 BRAND USE STUDY, SPONSORED BY Hanley Wood, LLC, publisher of BUILDER, provides an in-depth look at the product brands builders recognize and use most and how they rate the brands' quality. The report, conducted by Readex, an independent research company based in Stillwater, Minn., highlights respondents' opinions about brands in 87 product categories. New categories this year include: Bathroom Ventilation/Fans; Carpet; Elevators: Residential; Exterior Trim; Generators: Portable; Generators: Stationary; Radiant Barrier Sheathing; and Roofing: Photovoltaic. Check the list out and see whether you agree with your peers. (You can view an expanded version of the report online by visiting our Web site noted in the "Uplink" box below.)

UPlink

IN ADDITION TO MEASURING RESPONDENTS' AWARENESS OF AND USE OF VARIOUS BRANDS IN 87 PRODUCT CATEGORIES, THE STUDY REVEALS HOW BUILDERS RATE THE QUALITY OF THE BRANDS THEY KNOW. TO VIEW AN EXPANDED VERSION OF THE REPORT, VISIT WWW.BUILDERONLINE.COM/PRODUCTS/BRANDSTUDY.

METHODOLOGY

The survey sample of 10,800 was selected from BUILDER's domestic qualified "builder," "builder/developer," and "general contractor" circulation of 107,154 recipients. The data were collected in the last quarter of 2008. The findings cited are based on 3,417 usable responses (32 percent of the survey sample). The margin of error for respondents' product-ranking percentages based on the total answers for each product category in the study is +/- 1.6 percent.

FAVORITE 50

The 50 most popular products of 2008.

Today, a company can tell you, in real time, how many visitors its Web site is getting, how long visitors are staying, and how many pages they've clicked through. Unnerving, perhaps, but monitoring such metrics also means we can find out what you're interested in. Thanks to Builder's reader service bureau, Inquiry Management Systems in Toronto, for example, we have a very accurate picture of what products piqued your curiosity over the course of 2008.

And compiling lists such as the Favorite 50 reveals a lot about where the industry's collective head is at. For example, last year, the popularity of tankless water heaters and in-floor radiant heat reflected the growing interest in energy efficiency, while folding patio doors spoke to the indoor/outdoor living movement. This year, energy efficiency and sustainability are still hot, but take a good look at the rest of the list and other trends will emerge.—*Nigel F. Maynard*

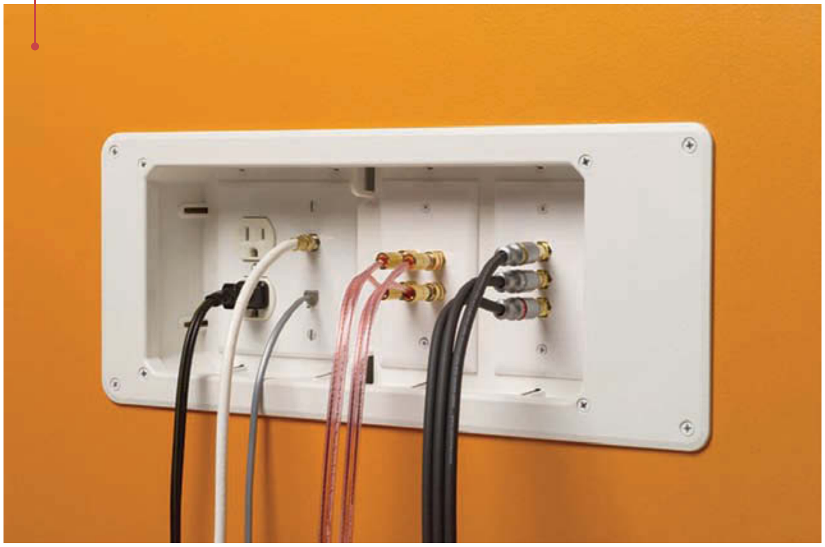
1. Progress Lighting: lighting
2. JMX International Corp.: bamboo flooring
3. L.E. Johnson Hardware: sliding-door hardware
4. Bonsal American: concrete resurfacer
4. Teragren: bamboo flooring
6. Heat Transfer Products: evacuated-tube collector
7. Georgia-Pacific: precut wood joist
7. Heat Transfer Products: solar water heater
9. ShowHouse by Moen: pot-filler faucet
10. California Faucets: shower drain
10. Wellmade Floor Coverings: bamboo flooring

HOLES IN ONE: You can rely on your subs to make jobsite cuts in the floor joists and hope they don't make any mistakes. Or you can use the XJ 85 joist, which has strategically placed openings in the web for plumbing, HVAC, and electrical systems. The work will look neater, yes, but the company says the precut holes will also result in fewer callbacks and faster installation and, thus, bigger savings. ■ **Cost: competitive with standard joists. Georgia-Pacific Wood Products. 800-284-5347. www.gp.com.**

DRAIN GAME: If you build high-end homes, details matter. This is why the manufacturer offers the StyleDrain line of shower drains that blend form and function. Measuring $5\frac{1}{4}$ inches by $5\frac{1}{4}$ inches, the forged brass unit has a square design, so installing tile is easy, and it has no visible screws. It comes in 30 finishes. ■ **Cost: $259 to $336. California Faucets. 800-822-8855. www.calfaucets.com.**

12. ECO-heater Inc.: wall-mounted heater
12. Kidde: low-profile smoke alarm
12. White River Hardwoods: cabinet molding
15. Fypon: cove molding
16. Windsor Mill: molding
17. Georgia-Pacific/Quiet Solutions: sound proof/moisture-resistant drywall
17. Rinnai: tankless water heater
19. Eaton Corp.: backup generator
19. Sloan Valve Co.: pressure-assist flush valve
21. Arlington Industries: t.v. box
21. Fomo Products: foam air seal
23. Cummins Power Generation: backup generator
24. 360 Electrical: rotating outlet
25. Bay Tree Technologies: thermally modified lumber
25. Icynene: foam insulation
27. Generac Corp.: backup generator
27. Guttersupply.com: copper downspout
27. LiteSteel Technologies America: steel beam
27. Trane: whole-house air filtration
31. Benissimo Systems: modular granite countertops
31. Kohler Power Systems: backup generator
33. Grand Hall: tank/tankless hybrid water heater
34. James Hardie Building Products: fiber-cement siding
35. Kichler Lighting: LED under-cabinet lighting
36. BioBased Systems: soybean foam insulation
37. Briggs & Stratton: backup generator
37. Kohler: bath vanity
39. Central Floors: bamboo flooring
39. Crown Column & Millwork: column
41. Brondell: dual-flush toilet converter
41. Fagor America: slim refrigerator
41. L.E. Johnson Hardware: pocket-door hardware
41. Yekalon Industry: laminate flooring
45. CertainTeed: foam insulation
45. Sugatsune America: door hardware
47. MTI Whirlpools: concealed-drain shower base
47. Nana Wall Systems: aluminum-clad folding doors
47. Terra Acqua: stone sink
50. SLK Development Group: four-in-one level

LOW PROFILE: From a design perspective, a typical smoke detector is an eyesore. Silhouette bucks the trend with a sleek profile that buyers will likely tolerate and perhaps even celebrate. The alarm is hard-wired but has a sealed lithium battery back-up that will last the life of the alarm. It uses ionization sensor technology and has an end-of-life warning. ■ **Cost: $110 to $113. Kidde. 800-880-6788. www.kidde.com.**



BOXING MATCH: Because wall-mounted televisions are ubiquitous these days, the manufacturer created the TV Box, a recessed, two-gang electrical unit that provides space for plugs. Measuring 13 inches wide, the non-metallic box mounts between studs and will accept two low-voltage devices or a low-voltage device and a power receptacle. The trim plate is paintable. ■ **Arlington Industries. 800-233-4717. www.aifittings.com.**

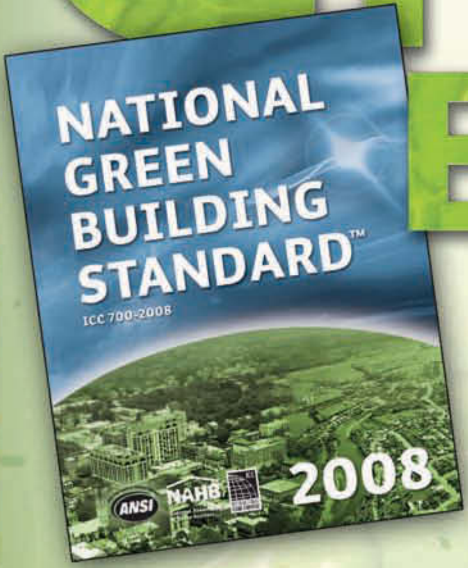
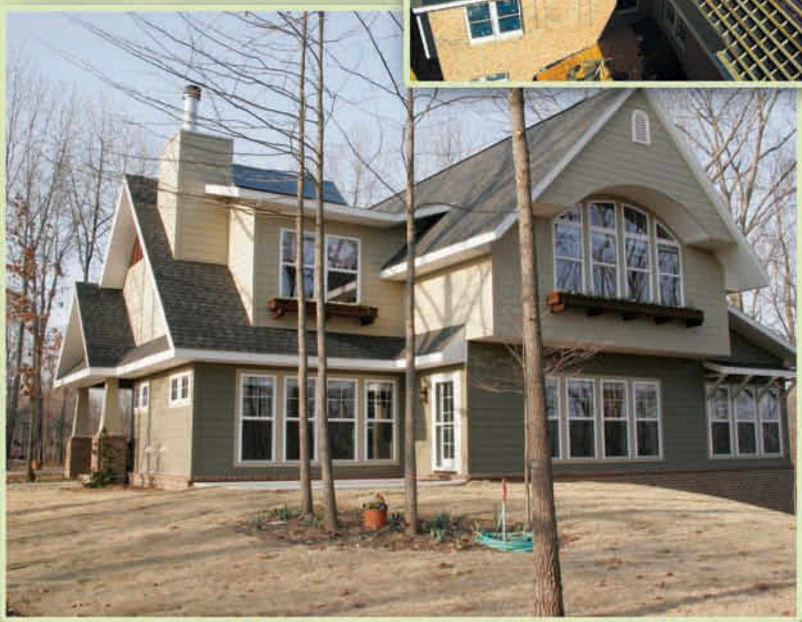
National Green BUILDING Standard™



ORDER TODAY!
www.BuilderBooks.com
or 1.800.223.2665

International Code Council® and National Association of Home Builders

- First ANSI consensus standard on green building for residential construction.
- For multifamily, home remodeling and additions, site development, and single-family housing.
- Includes lot design; resource, energy, and water efficiency; indoor environmental quality; and owner education.
- Four thresholds: Bronze, Silver, Gold, and Emerald.
- For use by any builder for their individual projects, or be the basis for a local community or state green building program.



From BuilderBooks, 2009, 116 pp/Soft-cover
Item 00260 ISBN 978-0-86718-641-3

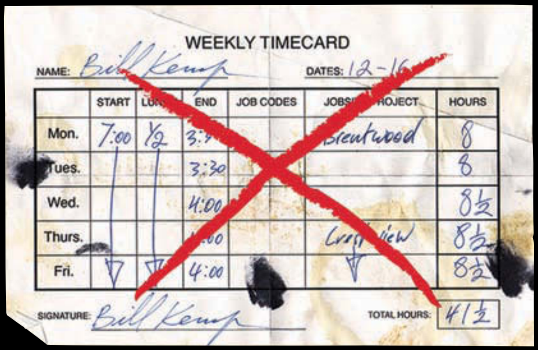
Get a ***FREE*** one-year subscription to Cabela's Outfitter Journal just for letting us give you a ***FREE*** quote!

Call 1.888.788.8463!

$16,300 per year

That's how much *on average* customers tell us The JobClock® System saves them on payroll. And you might save even more. Simply because you'll be paying your workers only for the actual hours they work. It's fair to them. And fair to you.

But, it's your choice. Keep tracking time the old-fashioned way and keep losing money on every payroll. Or switch to the JobClock, and start saving thousands of dollars. In this economy, you can't afford to be without it!



Employee Time Card

Mountain View CONSTRUCTION

Bill Kemp

Monday, October 12, 2009 - Friday, October 16, 2009

Jobsite Name	Cost Code	Mon	Tues	Wed	Thu	Fri	Total
Brentwood Job	Framing	7:38	7:35	7:53	–	–	23:06
Crestview Job	Drywall	–	–	–	7:58	7:49	15:47
		7:38	**7:35**	**7:53**	**7:58**	**7:49**	**38:53**

Bill Kemp

Regular Hours	38:53
Overtime Hours	- 0 -
Double Time Hours	- 0 -

Forget wasting time trying to decipher handwritten timecards. JobClock makes it easy to accurately track time. You can save thousands!

Ask about our "Tough Economy Easy Payment Plan!"

Bulletproof Your Contracts
Do your contracts have all the disclosures that your state laws require?
Most states have enacted stringent new contract laws to protect homeowners.
Using a boilerplate contract can be like handing the owner's lawyer a blank check.
Create customized contracts for each job.
Resolve key issues in your favor.
Set the bias of each contract.
Updates are free for a year.
Only $99.95

House on the Corner

Envy of the Neighborhood

The right door makes all the difference.

Timeless styles and a rich mahogany finish come together to create the new Fiber-Classic® Mahogany Collection™ from Therma-Tru.® Available in an array of glass designs, they're an easy and attractive way to enhance any home. And since all styles in the collection qualify for a $1500 tax credit, the right door makes more of a difference than ever. To learn more, visit thermatru.com.

#1 brandLEADER

vinyl windows

A Reputation Built On Quality

Custom-made vinyl windows and doors created to your specifications in just five days? Believe it!

Quality

At **Simonton Windows**® we don't just deliver the quality that builders demand, we deliver it sooner than anyone else. Quality products, quality service and quality delivery—all in an unbeatable five days.*

Why choose energy efficiency, durability, quality or fast delivery when you can choose the quality leader and have it all?

When it comes to quality products and service, builders get satisfaction with **Simonton**. That's why **Simonton** has received four prestigious #1 Brand Leader rankings in "Quality" from BUILDER readers in recent years.

Award-winning products aren't the only reason **Simonton** is a perennial favorite with builders, remodelers and contractors. For more than 60 years we haven't just built quality windows and doors—we've built a reputation as an extremely reliable company that stands behind our products with industry-leading service. Our exceptionally strong "perfect order" average provides you with top-quality products you can rely on to reach you on-time and with no hassles. And **Simonton** belongs to the Fortune Brands family of companies, alongside some of the most recognized and trusted consumer brands in the world, such as Moen, Master Lock and Titleist.

Quality and peace of mind, delivered. The next time you're selecting windows and doors, choose the company builders prefer. Choose **Simonton**.

Visit us at simonton.com or call 800-SIMONTON (746-6686) to locate a distributor near you.

SIMONTON WINDOWS®

* Under normal conditions, from your supplier's weekly cut-off date. Impact-resistant products and special orders may require additional lead time.

You can never have too much of a good thing.

So what is it you really want from a window manufacturer? The kind of satisfaction that earns a J.D. Power and Associates award for "Highest in Builder and Remodeler Satisfaction among Residential Window and Patio Door Manufacturers"? Or the kind of product that is rated "#1 in Quality among Vinyl Window Manufacturers" in a *Builder* magazine reader poll? How about both? There's only one who can offer it all – Simonton Windows® Call us today at 1-800-746-6686 or visit us at www.simonton.com to locate a distributor near you. And discover just how good you can have it.

SIMONTON WINDOWS®

Simonton Windows® received the highest numerical score in the proprietary J.D. Power and Associates 2008 Builder and Remodeler Residential Window and Patio Door Satisfaction Study.SM Study based on 2,837 builders and remodelers measuring 13 manufacturers. Proprietary study results are based on experiences and perceptions of builders and remodelers surveyed in May through June 2008. Your experiences may vary. Visit jdpower.com

LIFTMASTER® ELITE SERIES™ GARAGE DOOR OPENERS

THE PERFECT MERGING OF TECHNOLOGY AND LIFESTYLE.

Introducing a higher standard in garage door openers.

Research tells us that consumers are willing to pay more to get more. That's what the LiftMaster® Elite Series™ is all about. Products that deliver superior performance, thoughtful innovations, industry exclusives and accessories that offer more than ever. Like our Premium Remote with its sleek styling and Smart Control Panel™ that displays the time, temperature and diagnostic information about the opener on an illuminated display panel. The LiftMaster® Elite Series™ gives you a better differentiated line of high-end products for consumers who demand greater control and more convenience.

To learn more, visit www.liftmaster.com or call 1-800-323-2276.

INCLUDED ACCESSORIES

MODEL 3850 *EverCharge® Standby Power for access during power outages.*

MODEL 3595 *Strong 3/4 HP chain drive for the heaviest custom designer doors.*

MODEL 3585 *Quiet, rugged 3/4 HP belt drive.*

MODEL 3575 *Powerful 3/4 HP with quiet chain drive performance.*

MODEL 3800 *Space-saving wall-mounted jackshaft.*

Premium Remote Control *Lights up with the wave of a hand.*

Smart Control Panel™ *Shows time, temp and diagnostics.*

The only professionally installed openers with 3/4 HP strength.

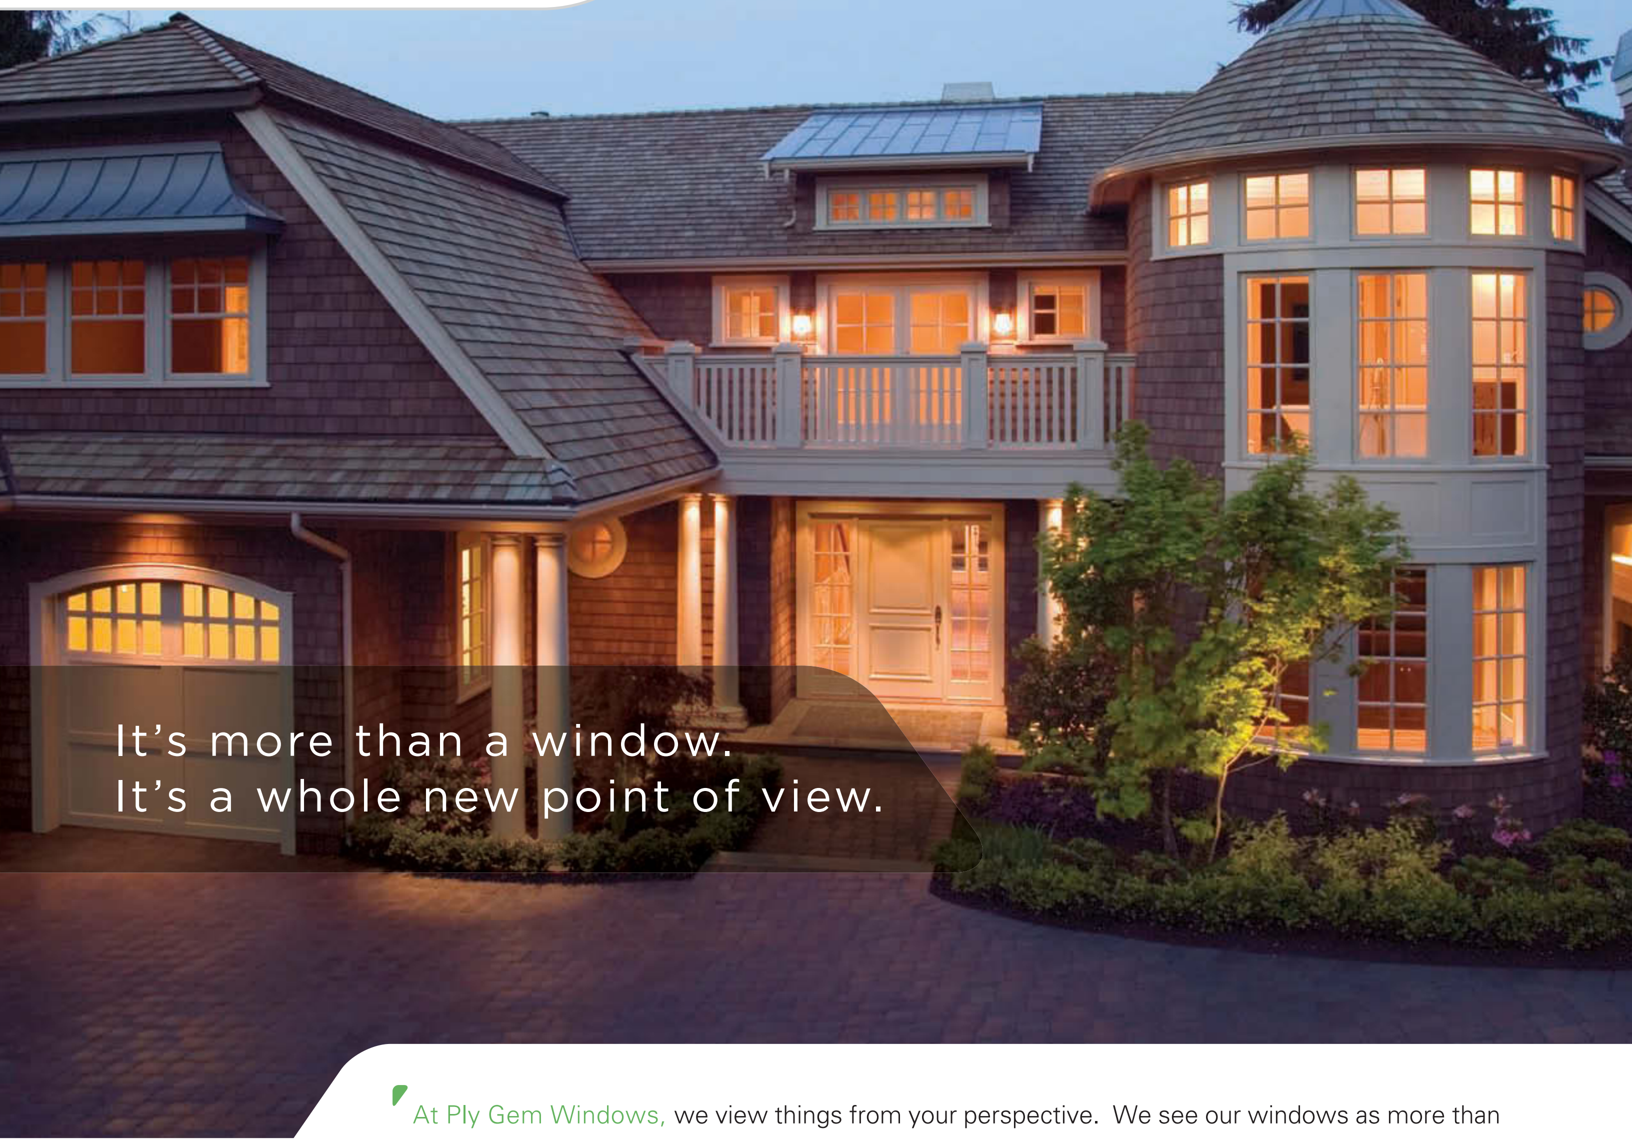
Ply Gem
Windows



At Ply Gem Windows, we view things from your perspective. We see our windows as more than just products; we see them as opportunities to build your success. And that's exactly why we've taken our entire portfolio of brands, brands that you know and trust like MW Windows, CertainTeed, Patriot Windows, and Alenco Windows, and given them a new name – Ply Gem Windows. With this one name comes a lot of distinct advantages, like one-stop access to a variety of window materials and styles for all of your design needs. Plus, with our national manufacturing and distribution network, industry leading warranties, and exceptional customer service and support, you'll get the right window for every project and every budget.

To learn how Ply Gem Windows can help you build your business, visit www.plygemwindows.com.

DATA YOU CAN BUILD ON

YOUR JOB:
Keep you company on course in an ever changing market.

YOUR STRATEGY FOR SUCCESS:
Keep histroical information, industry analysis, and all of the latest forecasts at your fingertips.

HousingEconomics.com

The Economics Publication for America's Housing Industry

SUBSCRIBE TODAY!

NAHB®
National Association of Home Builders

Home fire sprinkler systems are now required in over **200 municipalities** in the U.S. and the list is growing … *rapidly*. Communities want to protect residents and save lives. The Rapid Response® system can help you do that while maintaining profitability, minimizing labor costs and differentiating your business.

Thanks to our exclusive **Rapid Response Contractor Program**, we're here to support you with:

- Lists of experienced residential sprinkler contractors
- Research-based marketing materials to educate new home buyers
- Information on "trade ups" that you can use to increase land use and decrease development costs

You'll discover that, for less than the cost of many typical upgrades, you can offer unsurpassed protection and peace of mind to buyers while winning business for yourself.

Go to http://builder.hotims.com for more info

PREFERRED CONTRACTOR

For more information or to locate a "preferred" installation contractor in your area, visit www.tyco-rapidresponse.com, or call 1-877-438-8926.

The Future of Lighting...Today

LED Surface Mount Downlight

POWERED BY
JuiceWorks™

Introducing Sea Gull Lighting's LED surface mount downlight as well as its retrofit counterpart.

The LED Surface Mount Downlight is a low profile, energy savings alternative to incandescent and compact fluorescent recessed lighting, as well as other standard ceiling lights. The fixture, including the LED chips and power supply, has been designed to last a minimum of 35,000 hours (50,000 hours chip life), equivalent to over 20 years of average household use.

Not all LED lighting is created equal. The Sea Gull Lighting LED downlights not only perform, but do so with comfortable, well-directed light. Sea Gull Lighting, in partnership with JuiceWorks, has developed this product to optimize LED performance. The patented JuiceWorks power supply, combined with the sophisticated optics design, maximizes the amount of light output from the fixture and optimizes usable lumens per watt.

Low Profile, Stylish Surface Downlights with Breakthrough Features:

- Smooth Dimming to 10%
- LED Surface Mount Installs Easily into a junction box
- Retrofit Surface Mount Easily converts existing recessed lighting
- Available in 3000K and 4500K color temperatures
- Highly energy efficient & exceeding California Title 24 standards

Cooper Lighting Model Home Program

Cooper Lighting can help showcase your homes through its Model Home Program. Contact your local Cooper Lighting representative/sales agent for additional details.

Halo Sweeps Lighting Category For The Tenth Consecutive Year!

The company continues to offer builders new relevant products.

“For the tenth year, builders have ranked **Halo** as the leading lighting brand in every category. We are proud of this achievement and thank the builder community for their continued support of our company,” says Glenn Siegel, the director of marketing and product management for Cooper Lighting. “This strong support has been built over the years due to **Halo**’s commitment to bringing industry leading lighting products to market. Now in our 53rd year, **Halo** continues to be the leader in recessed lighting, exemplified by the introduction of the world’s first ENERGY STAR LED downlight.”

New ENERGY STAR Products

Halo’s extensive recessed offering of 3", 4", 5" and 6" aperture housings continues to expand, addressing today’s needs for ENERGY STAR, energy-efficient choices. New IC-rated and AIR-TITE™ downlights include the **Halo** 6" LED, Halo Eco-Twist™ 5" and 6" multi-wattage compact fluorescent (CFL), and 4" CFL.

The first LED downlight to meet stringent ENERGY STAR requirements, **Halo** LED consumes less than 14 watts and delivers over 40 lumens per watt—comparable light distribution and better light output than a 65 watt BR30 lamp. Designed for new construction or retrofit, the dimmable **Halo** LED provides excellent color (80CRI), warm white color temperature (3045K), and good cutoff (50 degrees). A full offering of trims include multiple baffle and reflector options.

Halo’s new Eco-Twist downlights, offered in new construction and remodel housings, accept the energy-saving, low profile, high color “Living Spaces” CFL lamp by Osram Sylvania that features enhanced R9 red for excellent color (86 CRI) and high visual comfort. The lamp’s warm color temperature (2700 K) provides incandescent-like color. Eco-Twist allows interchangeability of 16W, 21W or 28W lamps in a single housing.

Also available, **Halo** 4" CFL new construction and remodel downlights accept a 13W or 18W lamp, and offer a wide selection of trims including baffles, reflectors, and lensed shower trims, including the popular Drop Dome Lens shower trim.

for FLUSH-TO-THE-WALL MOUNTING of LCD/PLASMA TVs

TV BOX™

2-GANG • 3-GANG • 4-GANG

RECESSED POWER & LOW VOLTAGE BOXES

Arlington's recessed combination power and low voltage boxes – **TV BOX**™ and Indoor **IN BOX**™ – offer the secure, convenient and easy way to mount LCD or plasma TVs flush against a wall. And the job looks great because plugs and connectors stay inside any of these boxes without extending past the wall.

Each offers power and low voltage *in one side*, or with the supplied separator, power in one side, and low voltage in one or more of the other opening(s).

Available in 2-, 3- and 4-gang styles for new or old work, there's a box to fit nearly any application!

2-gang Try the TVBR505 for old work. For new work there's the DVFR2.

3-gang Our super efficient TVBU507 is designed for new or old work.

4-gang For new or old work applications, it's the TVB613.

All are...

- Non-metallic
- In paintable white or black
- Easy to install, secure installatio
- Easy to cover when not in use with **optional** covers
- UL Listed (CSA w/ grounding lug)

Go to http://builder.hotims.com for more info

portable generators

The Honda EB3000c Industrial Series Generator.

The all-new Honda EU3000*i* Handi Generator

Brand Familiarity

Brand Used in Past Two Years

Brand Used Most

Quality

Honda Is The Number One Supplier Of Generators—Again!

Honda consistently ranks number one with builders year-after-year, for a reason. **Honda's** comprehensive line of generator products coupled with product efficiency, durability, innovation and sheer power on the job, make **Honda** the number one choice with pros, nationwide.

Honda Portable Power System (HP²S)
Honda Power Equipment recently introduced the **Honda** Portable Power System (HP²S), the first portable home power backup system that provides automatic, uninterruptible and intelligent transfer of power during outages. Like all products within the **Honda** generator line, the HP²S is powered by legendary **Honda** a 4-stroke engine.

The system combines a **Honda** generator, a smart transfer switch and a battery back-up (or UPS). This new generator was developed exclusively for **Honda** Power Equipment by American Power Conversion (APC), a leading provider of global, end-to-end, AC and DC-based back-up power products and services.

The HP²S System offers unprecedented residential power management. For the first time, a system is available to provide a portable back-up power system that is easy to install and use and requires little interaction by the consumer when utility power is interrupted.

Honda's Full Line Of Generators
Honda offers a full line of reliable and efficient generators for residential, commercial and industrial applications.

Honda's Super Quiet Series of generators—the EU1000*i*, EU2000*i*, EU3000*is* and the new EU3000*i* Handi—are inverter-equipped, lightweight models that feature a totally enclosed body resulting in noticeably quieter performance.

The EB3000c, which features CycloConverter™ technology, is typical of **Honda's** offerings for the commercial and industrial marketplace. Weighing only 68.4 lbs, it produces 2,600W of continuous power and will run for 9.39 hours at half load on a single tank of fuel.

Within **Honda's** industrial generators category are four other **Honda** EB series models, powered by **Honda's** GX series commercial grade OHV engines, and available in 3,800, 5,000, and 6,500 and 10,500-watt sizes. All models are G.F.C.I. and neutral bond grounded to meet OSHA requirements for jobsites.

About Honda Power Equipment
Honda Power Equipment is a division of American **Honda** Motor Co., Inc., and manufactures and markets a complete range of outdoor power equipment.

The Honda Portable Power System (HP²S) .

HONDA GENERATORS

For more information, visit honda.com.

Go to http://builder.hotims.com for more information

Let's pretend this is a magic outlet.

You can put it almost anywhere on the job site and have power for lights, tools, chargers, computers, even though nothing's wired yet. Wait a minute. That's a tough-as-nails never complaining Honda portable generator. Guess there's nothin' much else to say.

Except that now they come in more choices than ever before and offer a three-year limited warranty.* Plus, Honda offers special discounts on fleet purchases.

Figures.

HONDA
GENERATORS

SHOP ONLINE honda.com

Go to http://builder.hotims.com for more info

HONDA 3 YEAR LIMITED WARRANTY EXCEPTIONS APPLY
See full warranty details at honda.com

*Warranty applies to all Honda GX Series Engines and GX Series-powered Honda Power Equipment, 100cc or larger, purchased or put into rental service after January 1, 2009. Exceptions apply. See full warranty details at honda.com. Does not apply to EU1000 models. Please read the owner's manual before operating your Honda Power Equipment and never use in a closed or partly enclosed area where you could be exposed to Carbon Monoxide. Connection of a generator to house power requires a transfer device to avoid possible injury to power company personnel. Consult a qualified electrician. ©2009 American Honda Motor Co., Inc.

Smarter Hot Water Solutions From Rheem

The Brand Leader In Residential Water Heaters

Rising fuel costs and global warning make the headlines daily. Homeowners are looking for new ways to cut costs and reduce their carbon footprint. **Rheem** designs high performance, sustainable products that help homeowners save money and also differentiate your homes from the competition. We offer more ENERGY STAR® product lines than any other water heater manufacturer.

Rheem ENERGY STAR-compliant water heating solutions

- New **Rheem** Residential Power Vent, gas-fired water heaters are now being offered with an LCD wired remote control that will allow homeowners to enjoy remote control of their domestic hot water from virtually anywhere in the house.

- New **Rheem** Power Direct Vent, tank-type water heaters are designed to meet the rigorous demands of today's tightly constructed new homes that seek to maximize both energy savings and air quality.

- New **Rheem** RTG-66X Outdoor Tankless water heater meets the needs of most two-bath residences. The unit has a lower firing threshold and is also pre-programmed for higher efficiency at high altitudes.

- New Heat Pump Water Heater! In the fall of 2009, **Rheem** is making one of its most exciting debuts with the air-source Heat Pump Water Heater. With an Energy Factor of 2.0, the new water heater will more than double the efficiency of standard electric storage water heaters. Quick recovery rate and a slim profile will make it a favorite with homeowners and installers.

Rheem has recently introduced the SolPak® Active Solar Thermal System Kit, which uses a glycol solution to transfer heat from two mountable solar collectors to the water in a heat exchanger storage tank.

No manufacturer offers a wider array of smarter hot water solutions for the home.

RTG-66X Outdoor Tankless Water Heater

2010 AMERICA'S BEST BUILDERS

hanley wood

your business is one of the best

make sure everyone knows it

America's Best Builders Awards honor the best home builders in the country. A panel of industry experts—your peers—selects outstanding builders for overall achievement in housing. To be the best is to excel at the big picture of running a home building company and achieving excellence in:

- Finance/Operations
- Design/Construction
- Customer Service/Quality
- Community/Industry Service
- Marketing

recognition

Winners receive valuable marketing benefits, including:

- Feature coverage in an issue of BUILDER
- A personalized award
- Press Release

deadline & fee

July 17, 2009
Entry form and fee

August 24, 2009

eternal®
ADVANCED HYBRID WATER HEATING

HOT, INSIDE AND OUT.

Having killer looks is a great start. Add a heart of gold, and it's magic. Our patented hybrid heat exchanger keeps the hot water flowing, which makes Eternal so amazing. It produces almost no harmful emissions and is environmentally friendly. The sealed combustion system and designer finish means Eternal is safe yet sleek enough to stand next to your most prized possessions.

Provides endless hot water for up to 6 applications at once.

Endless

Replaces multiple water heaters and supplies endless hot water

Reliable

Made of corrosion resistant stainless steel with 20 year no leak warranty

Efficient

Patented counter flow design maintains at least 86% efficiency to save energy cost and the environment

INDUSTRY LEADER

HOME BUYERS SAVE

You work hard to build your business. ClimateMaster, the leader in geothermal heating and air conditioning systems, helps you sell more homes. Geothermal systems are one of the fastest growing product lines around, and with a ClimateMaster system, your buyers can cut their energy use by more than half. Each system qualifies for federal tax credits, and with multimillion-dollar national marketing support behind the brand, you won't have to dig very deep to make the sale. Call 800-299-9747, or visit climatemaster.com and become a part of our team today.

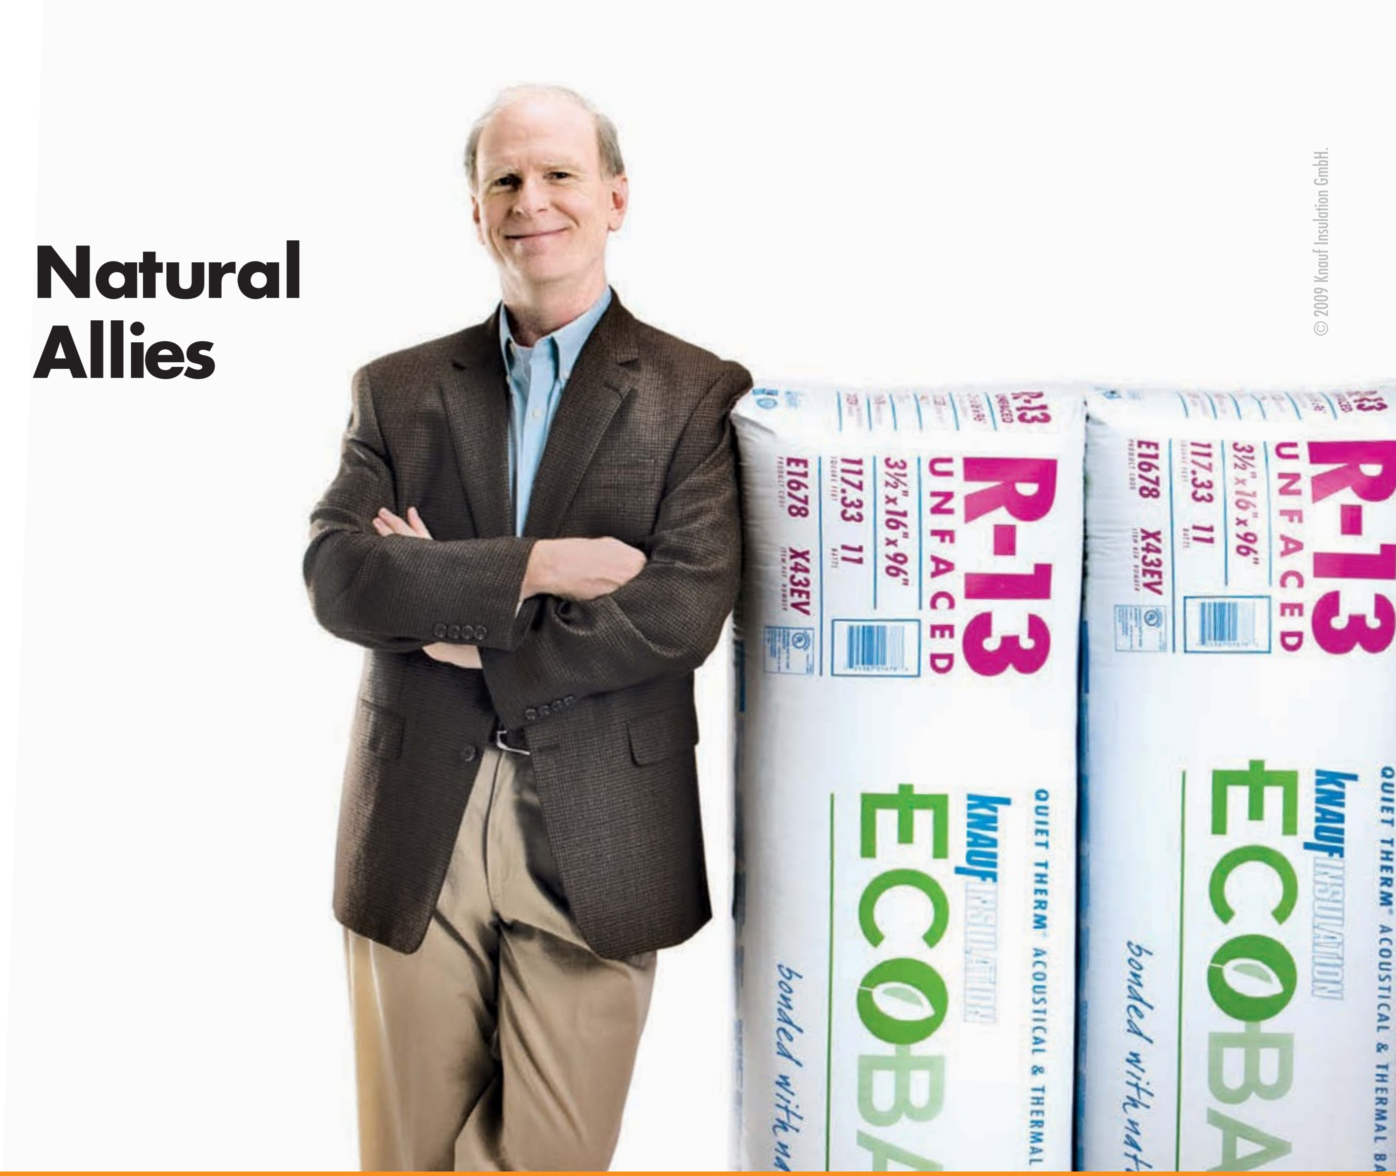
Natural Allies



© 2009 Knauf Insulation GmbH.

I'm always on the lookout for new, more sustainable ways to design and build. That's why I specify EcoBatt™ Insulation from Knauf for my projects.

Knauf EcoBatt Glasswool gives me the same optimal performance as all their insulation, but it's more sustainable…thanks to its abundant and renewable raw materials, high post-consumer recycled content and ECOSE™ Technology.

Knauf's revolutionary new ECOSE Technology is a binder with a lower embodied energy. It is based on rapidly renewable bio-based materials—eliminating the non-renewable petroleum-based chemicals such as phenol, formaldehyde and acrylics found in traditional fiber glass insulation.

With my focus on sustainable building, EcoBatt Insulation is the natural fit for my projects.

with ECOSE™ TECHNOLOGY

MonierLifetile's Concrete Roof Tile Provides Sustainable Solutions For Builders

Brand Familiarity

Brand Used in Past Two Years

Brand Used Most

MonierLifetile is the roofing product that has been green for decades in the U.S. and for a generation through our European lineage. As a leader in the Green Building movement, **MonierLifetile** is committed to using naturally available materials that mitigate the negative impact to the environment and emphasizes conservation and energy efficiency.

Concrete roof tile is inherently sustainable. The durable lifecycle of **MonierLifetile** products—from beginning to end—meets the needs of the present without compromising the future. **MonierLifetile** is committed to reducing greenhouse gases to minimize our carbon footprint from environmentally conscious manufacturing, to reducing transport distance, utilizing local raw materials, to the re-usability and recyclability of tile.

By comparison, other roofing products require harvesting of trees or extraction of less abundant materials such as slate, energy-intense metal, or fossil fuels used to produce asphalt shingles. Raw materials used by **MonierLifetile** are sourced close to our manufacturing plants in order to minimize transportation emissions and fuel consumption.

Because each tile is individually attached, they are easily repaired or replaced where as other roofing materials may require complete re-roofing. Installation and maintenance costs over time are lower than other roofing materials because concrete tile is made to last for generations.

In addition to the natural energy efficiency of concrete tile, our Energy Efficient Roof System further improves energy savings for the life of the building structure. Our ventilated, self-regulating system creates a cooler house in summer and a warmer house in winter. As a result, homeowners energy costs are substantially reduced while reaping the benefits of a structurally superior tile roof.

For more information visit www.monierlifetile.com or call 1-800-571-TILE (8453).

BUILD EASIER, FASTER AND SMARTER: ZIP SYSTEM® ROOF AND WALL SHEATHING

ZIP System roof and wall sheathing eliminates the hassles of using housewrap and felt because the structural panels have built-in protective barriers that provide superior moisture protection for roofs and walls during and after construction. Install the panels, tape the seams with the specially designed ZIP System™ tape, and your job is done. It's just that simple.

Build smarter and put $900 in rebates* in your pocket. Act now by calling 800.933.9220 or visiting zipsystem.com/bld.

ZIP system™ ROOF & WALL SHEATHING

- Brand Used in Past Two Years
- Brand Used Most

CedarBoards™ Insulated Siding Delivers Improved Aesthetics And Energy Efficiency

Now the fastest-growing category of **CertainTeed** siding is recognized by BUILDER magazine as the insulated siding brand leader. CertainTeed CedarBoards™ insulated siding combines the beauty of classic wide-board cladding with energy efficiency to provide an exterior vinyl siding unmatched by competitive brands.

A Wider, Straighter Face Looks More Like Wood

Molded from real cedar boards and backed with extruded polystyrene insulation, CedarBoards has a natural rough-cedar texture and flat-faced, straight-edged look of wide board wood siding. It's available in 18 colors and four styles, as well as two different panel lengths (12 feet, 6 inches and 16 feet, 8 inches). A full line of specially designed trim and accessories, a lifetime limited warranty and **CertainTeed**'s exclusive PermaColor™ Lifetime Fade Protection add to the siding's appeal.

Environmentally Smart

Did you know that approximately 40 percent of the energy lost through a traditionally insulated wood framed wall is through the wood studs that comprise up to a quarter of a home's exterior? Studs act as thermal bridges that allow energy to pass through the wall. CedarBoards siding breaks the thermal bridge by insulating continuously over framing where energy loss is greatest. In fact, CedarBoards siding can increase the overall thermal performance of your wall by up to 30 percent, helping to reduce heating and cooling costs. CedarBoards siding also meets the performance guidelines of an ENERGY STAR® qualified new home.

Now, by updating the product specification of its CedarBoards Double 6" panel to include a 60 percent recycled content requirement, **CertainTeed** goes one step further in providing a smart, sustainable siding choice.

For great looks, energy savings and sustainability, **CertainTeed** CedarBoards insulated siding leads the pack.

brick siding

Boral® is committed to providing superior products and services to the builder.

A variety of colors and textures for any architectural preference.

Boral Bricks: The Right Product For The Right Reasons

Brand Familiarity

Brand Used in Past Two Years

Brand Used Most

Boral Bricks is America's largest clay brick manufacturer, and there's no better siding material available to today's builder than clay brick. It's all natural, energy-efficient, and provides clean, healthy home environments.

All Natural Materials And High-Tech Manufacture
Clay and shale are the raw ingredients for **Boral's** brick and paver products—among the most plentiful materials on earth. Combine these natural, non-toxic materials with the most advanced sustainable manufacturing processes in the brick industry, and you get an eminently sustainable product. **Boral®** leads the brick industry in the buildout of highly automated plants; the two newest plants are located adjacent to landfills, and utilize green house methane gas from these landfills to fire the brick kilns. Renewable fuels such as wood waste and landfill waste are also utilized through direct injection or gasification.

Energy-Efficient Clay Brick
Clay brick is inherently energy-efficient. Brick walls provide thermal mass (they heat and cool slowly), which regulates temperature inside a home. Add to this the 1-inch air space created by traditional masonry walls, and you have a wonderful, energy-efficient envelope for the homes you build.

Clean, Quiet, Safe Homes
Boral clay bricks emit no VOC's, CFC's, HCFC's or other harmful chemicals off-gassed by other materials or coatings, resulting in better air quality inside the home. **Boral** clay bricks provide better acoustic comfort inside as well—the air space and thickness of the exterior wall buffer sound and keep it outside. **Boral** clay bricks are not damaged by hail or high wind, provide no food for mold, and are totally unappealing to termites.

Add to that the increased, re-sale value of brick homes and their inherent curb appeal, and you have a wonderful siding product that will appeal to all of your potential home buying customers.

CREATING BETTER PLACES TO LIVE

More than simply a financial investment, our homes are the stage upon which we live our lives. Which is why professionals charged with building communities – developers, builders, architects and city officials – are looking at ways to create not only houses but whole neighborhoods that put people first.

This return to traditional neighborhood planning is proving a magnet for homeshoppers who appreciate the attention given to elements such as:

- Walkability
- A sense of place
- Sustainability
- Connectedness
- Interesting architecture

Apple Valley Mayor, Mary Hamann-Roland says their newest community, Cobblestone Lake, is a major reason people are moving to the area. They are attracted by the enduring appeal of its streetscapes, which are enhanced by house exteriors made from James Hardie® siding.

“Cobblestone Lake is a timeless development and James Hardie material on the homes enables it to be timeless,” says Hamann-Roland.

James Hardie is unveiling a new concept to the building industry– siding that’s engineered for climate. We want every home to have the right exterior for the right climate. We call it the HardieZone™ System. To learn more visit www.jameshardie.com or to find your HardieZone, please visit www.hardiezone.com or call 866-942-7343 (866 9HARDIE)

Stealth Trim System

John is a hands-on owner and project manager. That's why we are always interested in what he has to say about Versatex products – the good, the bad and the indifferent. We were thrilled when he told us our tolerances were the best in the industry. And we take notes when he tells us ways we can improve our products for guys like him. What we learn in the field goes directly into our innovative products, like the revolutionary patent-pending Stealth Trim System that cuts down installation time and expense. What issues are you facing? Flash us the sign and we'll show you how to trim smarter with Versatex.

VERSATEX® TRIMBOARD

www.versatex.com 724.857.1111

TRIM SMARTER.

"They came. They saw. They improved."

VERSATEX®

John Seifert
Owner, Seifert Construction
Long Island, NY

© 2009 Wolfpac Technologies, Inc.

Can the innovations that Versatex brings to market improve your project and make things easier?

This custom builder certainly thinks so.

John Seifert is a third generation builder and the owner and operator of Seifert Construction in Eastern Long Island, NY. For years, this company has catered to the high-end custom home market near the shore line of the Hamptons. To them, growth and longevity have come through constantly improving what they do and how they do it. It is no wonder John appreciates manufacturers who share his desire to make it better.

"I used a lot of PVC products and, by far, Versatex is the best," John says. "They are constantly trying to improve their techniques. They will ask me, as a builder, what do I see? I would definitely say they are a leader in the industry."

One of the items John and his fellow builders helped us create was the patent-pending Stealth Trim System. This system features cornerboards and window surrounds that have 3/4" x 3/4" pockets to accept any siding product. Plus, a new addition to Stealth, the Stealth Skirtboard, which is a perfect starter strip for any siding, especially fiber cement as it provides the required 6" ground clearance on cement sidings. The Stealth Skirtboard can go right into the ground or on masonry. Versatex cellular PVC is impervious to moisture.

"With Stealth, you are able to tuck your siding in so you don't have that ugly seam. It also eliminates a lot of prep work that is usually required and thus, is a real time saver," explains John.

John and his company love the innovation that Versatex brings to market and they also love the manner in which we bring it to market.

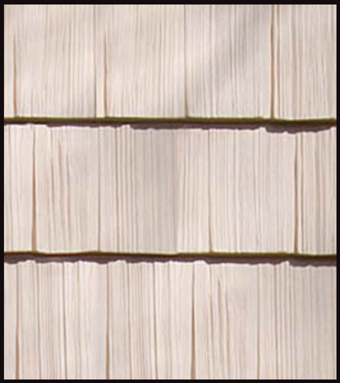
INNOVATIVE EXTERIOR PRODUCTS®
·THE FOUNDRY®·
SPECIALTY SIDING

44 feet without repeat : : seamless lap system : : **green building product**



Inspired by the charm and warmth of cedar, The Foundry is passionately focused on products that deliver cedar's natural beauty while providing maintenance free endurance. Cast from molds made from natural cedar, our Shakes and Shingles offer the lowest panel repeat in the industry. Engineered for sustainability, The Foundry is proud to offer Class A fire rated Shake and Shingle panels. We innovate for a living and manufacture products that are engineered for endurance and timeless beauty.

Friends For Life

When considering the characteristics of a lifelong friendship, terms like dependability, confidence and trust come to mind. At Nichiha, we create dependable fiber cement products that provide builders peace-of-mind regarding their siding needs. With over 35 years of fiber cement manufacturing experience, we are committed to working closely with builders, developing trusting relationships and giving homeowners the best value fiber cement has to offer.

Nichiha promises:
- Deeper, more authentic textures
- A lifetime limited warranty*
- Highly-rated Green Building solution (over 50% post-consumer recycled content)

Experience the Nichiha difference; your friend in the siding business.

epro™ Waterproofing Systems

A WORLD OF DIFFERENCE FOR REAL WORLD CONDITIONS

800-882-1896 • www.eproserv.com

High Performance Waterproofing & Gas Barrier Systems

Purpose of Design
- Superior Strength
- Simplifies Leak Detection
- Reduces the Effects of Future Movement
- Redundancy of Protection
- Maximizes Drainage Planes
- Custom Design for Special Requirements

Complete Redundancy
- Monolithic and Fully Bonded Barrier
- Multiple Waterproofing Barriers
- Multiple Protection and Drainage Courses

Epro Design
- Composite Technology
- Field Installed
- Monolithic
- Highly Adhesive
- Flexible Component Selection

Application Systems
- Concrete and Block Walls
- Blindside
- Beneath Slab
- Between Slab and Deck

Virtually Maintenance-Free Louvers, Cupolas & Exterior Accessories!

New Concept Louvers Inc., manufactures stock and custom Cupolas, Louvers, Shutters, exterior Crown moldings, Flashings, and Door Jamb wraps. Available in 450 aluminum colors, copper and other metals. Our Cupolas come in three pieces for easy installation, with the pitch pre-cut, and can be ordered with a light kit. Other products include; Weather Vanes, Spires, Finials, Leader Heads, Chimney Shrouds, and Dormer vents.

800 635-6448

Formica® Laminate: The Builder's Choice For Beautiful Kitchens And Baths

Shouldn't It Be Number One With You?

Brand Familiarity

Brand Used in Past Two Years

Brand Used Most

Formica Group has etched an image of innovation in the history of materials technology and modern design.

The **Formica Group** story began with transforming homes and businesses across America by inventing the first high-pressure laminate surface. With the addition of metals, wood veneers, solid surfaces and breakthrough techniques in **Formica**® Laminate design and manufacturing, today, we are the most trusted and recognized brand on the market.

PremiumFX™, a line of luxurious, competitively priced laminate surfaces, replicates granite and stone in dazzling detail bringing ultra-realism to kitchens and baths. The recently launched Radiance™ Collection features a shimmering, brilliant smooth-gloss finish punctuated with 3D holographic facets that refract and reflect light. For added durability, the Radiance™ Collection is sealed with the ProFormance™ topcoat for a stronger, tougher finish that stands up to the rigors of daily use.

Our newest PremiumFX™ Collection is 180FX™—the first laminate pattern to capture the true scale, striking color variations and veining of full-size natural granite slabs. Featuring nine best-selling granite colors with the Radiance™ finish, 180FX™ brings the luxurious look of stone and the practical advantages of laminate to kitchen countertops, islands, vanities and full-height backsplashes.

Beautiful. Hard working. Forward thinking.

FORMICA®

#1 brandLEADER

Third Time's The Charm For Fypon®

Repeat Performance; Fypon Is Big Winner In Category

Brand Familiarity

Brand Used in Past Two Years

Brand Used Most

Year after year, builders rely on **Fypon** for decorative trim, millwork and columns. For more than 40 years **Fypon** has provided award-winning "out of the box and on the house" finely-crafted pieces that enhance the value of homes while saving job site labor costs.

"**Fypon** pieces are created with the clear, crisp details that builders appreciate," says Tom Riscili, president of **Fypon**. "Each piece is architecturally accurate and adds to the overall value of the home. Of equal importance, we ship the majority of our product orders in five days or less, allowing us to fulfill builder needs quickly."

When it comes to adding interior and exterior urethane and PVC products to homes, **Fypon** is the answer. From thousands of standardized pieces to one-of-a-kind intricate custom designs, **Fypon** is preferred by builders nationwide year after year.

The impressive results from the 2009 Brand Use Study show that builders rely on **Fypon** products to add lasting value to their projects. The company is a repeat winner in the "Brand Used Most," "Brand Familiarity" and "Brand Used in the Past Two Years" categories.

"Whether using PVC trim to create custom interior arches or decorative millwork to enhance windows and doors, **Fypon** pieces dramatically add distinction to every home while saving time and labor on the job site," says Riscili. "We believe our urethane and PVC products continually receive recognition because builders appreciate their durability, ease of installation and low-maintenance aspects. For long-lasting beauty and performance, **Fypon** definitely leads the industry."

FYPON®

It's How You Finish.™

Paint The Way To New Home Sales

Sherwin-Williams Supports Builders With Products And Programs That Get The Job Done Faster, Better And More Economically

Since the introduction of **BUILDER** magazine's Brand Use Study, **Sherwin-Williams** has consistently ranked highest as the preferred paint and coatings brand. The company is proud to be recognized in 2009 as the No. 1 used and preferred brand for paints, stains and varnishes, and to also be ranked highest in product quality.

Green Solutions

Sherwin-Williams helps builders meet environmental standards with products that comply with the National Association of Home Builders (NAHB), the National Green Building Standard, LEED® and GREENGUARD guidelines and certifications, and many others. For more information, visit **swgreenspecs.com** and download the Sherwin-Williams LEED and Low-VOC Coatings Reference Guide.

Sherwin-Williams proprietary GreenSure® designation also helps builders identify products that are designed and manufactured taking steps to reduce environmental impact while maximizing performance. To learn more, visit **swgreensure.com.**

Color Design Services

With an extensive color palette of more than 1,500 hues, **Sherwin-Williams** makes color selection easier for builders and their customers with programs like Homescapes®, a customized collection of exterior color combinations selected by **Sherwin-Williams** color experts. What's more, **Sherwin-Williams** Color Marketing and Design Specialists can recommend wall color combinations or coordinate paints, window treatments, hard surfaces and flooring.

Quality And Value

Sherwin-Williams offers single sourcing for quality paints, floor coverings, wallcoverings, window treatments, equipment and supplies. With 3,300 stores, 1,600 representatives and a team of National Account Executives, no other paint supplier is better prepared to assist builders today. With the largest and most efficient distribution system in the industry, **Sherwin-Williams** supports builders with services to maintain consistency, reduce costs and increase their bottom line. For more than 140 years, **Sherwin-Williams** has been delivering the performance and look builders and their homebuyers expect.

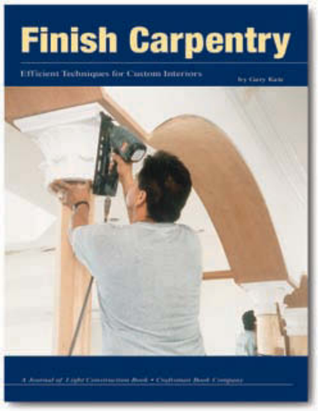
BOOKS for Builders



Finish Carpentry

Professional finish carpentry demands expert skills, precise tools, and a solid understanding of the design principles at work. This practical book by Gary Katz shows you how to produce top quality work on time and on budget using the latest materials and techniques. You'll improve your skills on everything from basic baseboard to ornate mantels, and much more.

Faux Wood Beams by Outwater

Outwater's high-density polyurethane Faux Wood Beams not only recreate the rustic look afforded by authentic, aged, hand-hewn oak beams, they are absolutely indistinguishable from the originals after which they have been patterned. Offered in "Ancient Rustic," "Modern," "Contemporary" and "Vintage" finishes, Outwater's Faux Wood Beams and complementary Corbels, Brackets and Panels can be tooled and refinished using traditional techniques and tools. Additionally, Rubber and Rigid Beam Strapping are available to replicate the look of the fastening hardware customarily utilized to secure and affix Beams.

FLEXIBLE MOULDINGS BY OUTWATER

Achieve radii never before possible! Outwater's Flexible Mouldings enable installers to easily create "on demand" "Bend To Fit" radii at the time of installation to accommodate the curvature of almost any inside, outside or arch radius application without profile deformation or causing excess stress to the mounting surface. Designed to be handled and installed utilizing typical woodworking equipment, Outwater's Flexible Mouldings do not require priming and are appropriately suited for use in commercial and residential construction, renovation and redecoration applications.

Merillat Helps Builders Create The Ideal Kitchen Experience

Merillat = Smarter kitchens. Better homes. Happier customers.

Brand Used in Past Two Years

Merillat®

www.merillat.com.

Go to http://builder.hotims.com for more information

The kitchen makes the home and today's best kitchens start with **Merillat**. Merillat's kitchen expertise offers builders:

- Increased customer satisfaction
- Increased sales velocity, sales margin and customer loyalty
- Confident, reliable and responsible service

Merillat's Kitchen Expertise Is Called Kitchen IQ
Merillat Kitchen IQ provides customers with the tools they need to create the ideal kitchen experience, and is based on the following business promises:

Ingenious Design
Merillat has conducted industry leading consumer research about how they shop in a model home, how they use their kitchens and what they're looking for in terms of quality, durability and style. These insights can help builders create kitchens that help sell homes.

Meticulous Quality
Knowledge is power. And **Merillat** tests, tests and re-tests.

To ensure product quality and customer satisfaction, **Merillat** puts all of its cabinetry through rigorous product tests. **Merillat** products exceed the Kitchen Cabinet Manufacturers Association standards across the board, and in some cases four times as much.

Total Commitment
Merillat invests in industry leading environmental efficiency processes and production systems and methods. These improvements assure builders of on-time completed delivery, simplified ordering and education and training to help them improve their bottom line.

#1 brandLEADER

faucet

A Touch Beyond Your Average Faucet

Brand Used Most

Pilar™ with Touch2O™ Technology. Touch on. Touch off. It doesn't matter if you have two full hands or 10 messy fingers. Tap anywhere on the spout or handle and the water is running. So, when hands are messy during meal prep or cleanup, Touch2O Technology helps reduce the spread of germs and bacteria—simply touch the spout with a forearm or wrist. Turning off the water between tasks is easier too, saving water. Also contributing to water savings: the auto shut-off feature that activates after four minutes.

In addition to **Delta**®'s exclusive DIAMOND™ Valve for worry-free, leak-free, lasting durability, Pilar also features MagnaTite™ docking that engages the wand to its docked position, keeping it securely in place. The pull-down spray wand directs water where it's needed—and the simple touch of a button changes the water from spray to aerated mode.

Inspired by the fusion of technology and nature, Pilar with Touch2O Technology not only performs to fit life, its look matches every lifestyle. The beautiful high-arc design provides ample clearance and efficiency of motion.

Available in 2- or 3-hole configurations, the faucet comes in both Chrome and Brilliance® Stainless finishes. A coordinating, easy-fill soap dispenser allows for convenient filling above the sink. Add an intuitive LED light that indicates red when batteries need changed and blue when the touch feature is activated, and you've got one smart faucet.

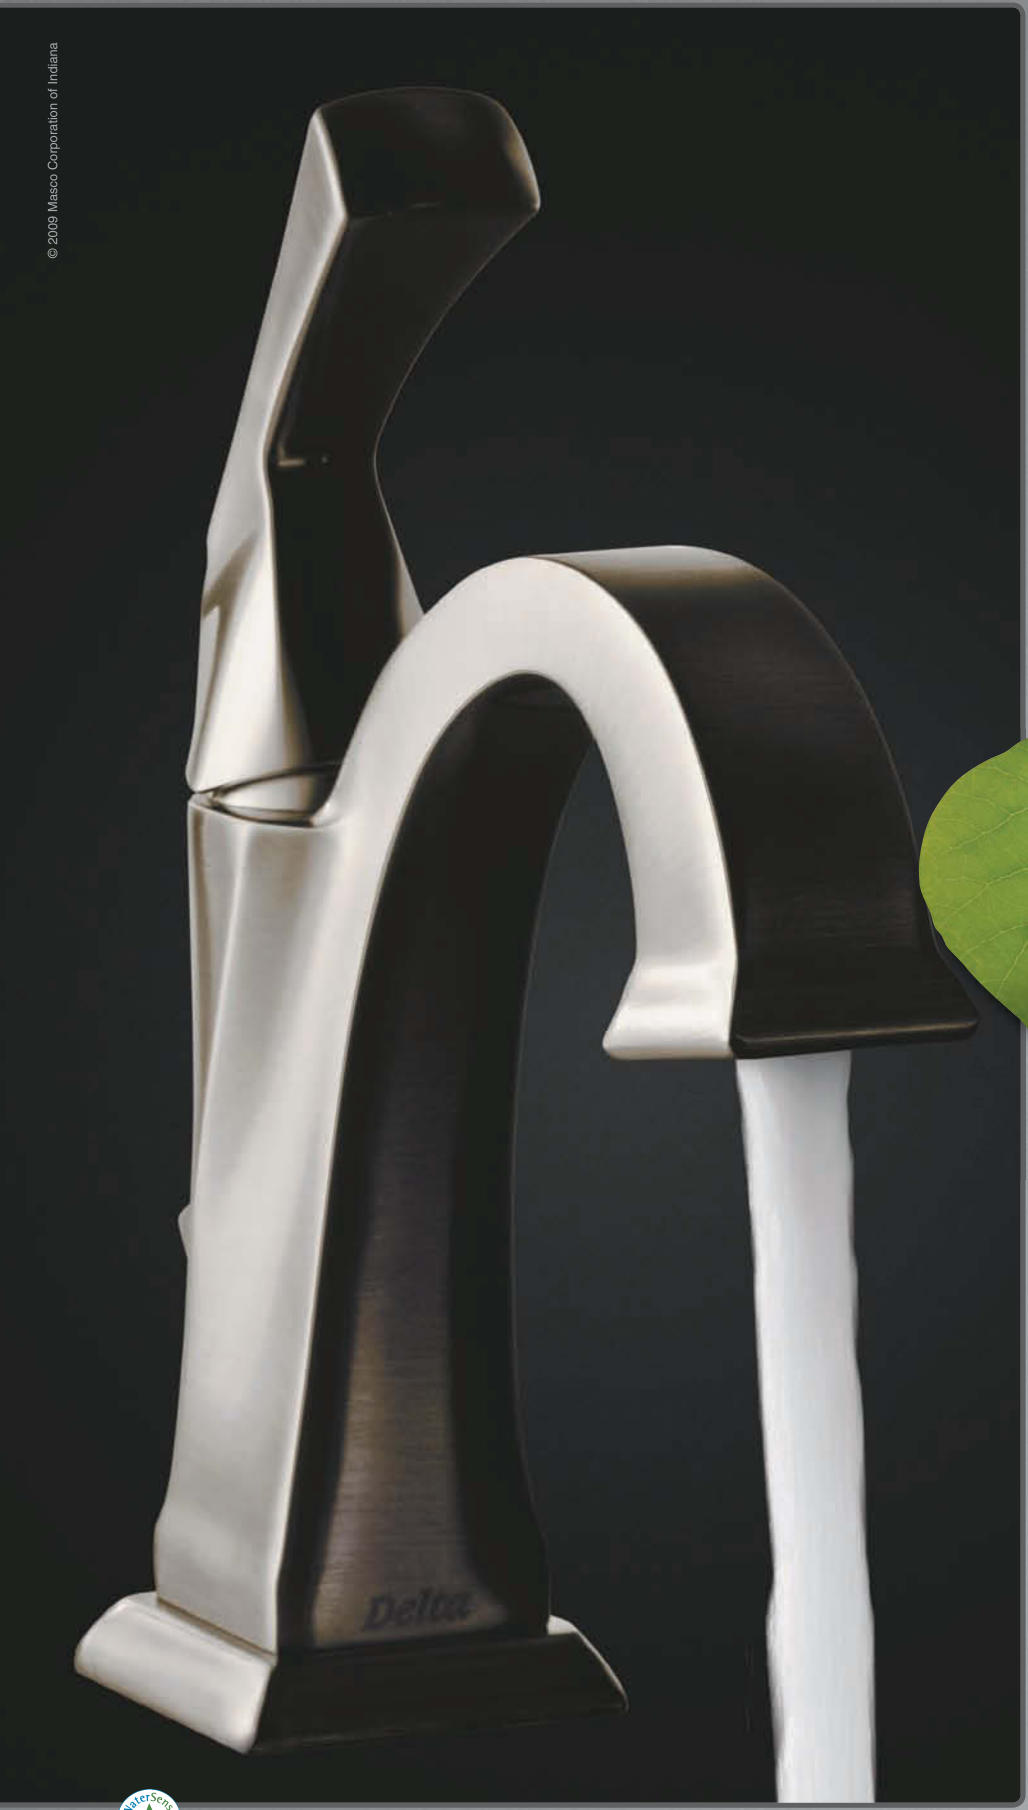
Making faucets easier to use—with just a touch. It's one of the many ideas that make **Delta** more than just a faucet.

For more information, visit deltafaucet.com/touch.

Go to http://builder.hotims.com for more information

DELTA®

see what Delta can do℠



Creating a greener home. Delta® smart water delivery solutions are part of a green home. As a WaterSense® partner, Delta is committed to encouraging efficient use of water resources. Most Delta lavatory faucets flow at a maximum 1.5 gpm, resulting in up to a 32% water savings*. Saving water—it's a beautiful thing. It's one of the many ideas that make Delta more than just a faucet.

Reinvention 2009
Designing For The Future
hanley wood

SEPTEMBER 14–16, 2009
FAIRMONT OLYMPIC HOTEL
SEATTLE, WASHINGTON

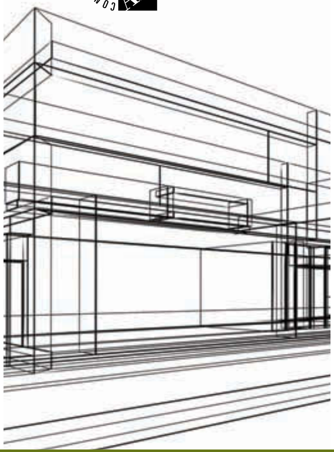
the new, new reality

Join us for the sixth annual Reinvention Symposium and find out how architects are already redefining the scope, capacity, and relevance of their practices.

Symposium Highlights:

- Housing Tour featuring Seattle's finest homes
- 2009 *residential architect* Leadership Awards
- Green Design Charrette
- Special partnership with three top architecture organizations:
  - AIA Seattle
  - Congress of Residential Architecture (CORA)
  - Custom Residential Architects' Network (CRAN)

CONTINUING EDUCATION AIA
BONUS: Earn up to 15.25 AIA continuing education credits.



register today

From the manufacturers of BETTER-BENCH®
RECESS-IT™
REC 1414
REC 1418
REC 614
Floating Shelf™
REC 46
Products shown are produced of a corrosion resistant alloyed aluminum with an elastomeric-waterproofing and anti-fracture coating combined with an aggregate bonding base. Finished materials, ceramic tile, marble, granite, etc. can be applied immediately after product installation utilizing standard mastics or thin-set. No additional additives are required. Listed products are supplied with wall fasteners which may be used with/without preinstalled wood blocking. Also try our Floating Shelf™, a tile ready shelf support, for use with any Recess-It™ units.
BETTER-BENCH®
The Shower Bench Solution
An easy to install bench-forming system that replaces the complex methods currently in use.

NAHB CUSTOM BUILDER SYMPOSIUM

DESIGN INSTITUTE
THE NAHB/BALA
Design Techniques for the Residential Builder

Custom Builder Symposium & Design Institute

November 6-8, 2009

Hilton San Diego Bayfront

San Diego, CA

Where will you find the latest trends in new home design and technology or the management strategies that will keep your home building business viable during tough economic times?

You'll find it at **NAHB's Custom Builder Symposium & Design Institute**—the place to go for knowledge and insight into the current custom market and design trends. Discuss the best ways to meet your clients' changing needs and capitalize on areas of growth. Get the information and resources to develop new business and building practices. Connect with your colleagues from around the country to share ideas and start breaking new ground!

Visit **www.nahb.org/Custom**
to get more information or sign up
to be notified when registration begins.

ENVIRONMENTAL SPECIES *of* NORTH AMERICA

*D*iscover a new genus of paver, ideal for both residential and commercial hardscapes. Belgard's collection of environmental pavers are attractive, all-weather durable, and most important, eco-friendly. The perfectly natural way to protect one of Earth's most vital resources. Every paver allows water to permeate and directly enter the ground, thereby reducing the negative effects of runoff on local watersheds, and ultimately the lakes, rivers and seas downstream. Thoughtfully crafted to help you construct hardscapes both good-looking and green. Because it is what's beneath that truly matters.

BELGARD™
– *environmental* –

TO LEARN MORE ABOUT NATURE'S HARDSCAPES, PLEASE CALL **1-877-BELGARD** OR VISIT US AT WWW.BELGARD.BIZ

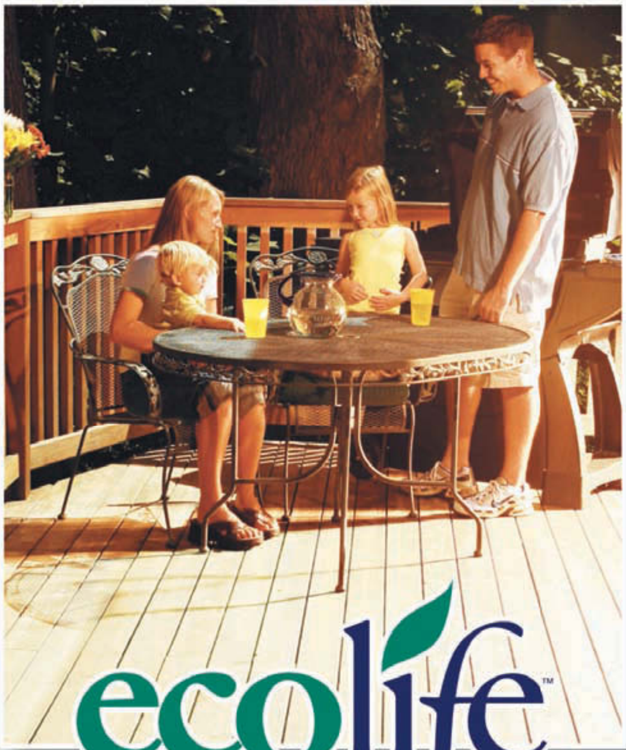
Preservation Innovation℠

Viance is committed to providing performance-based, environmentally preferred wood treatment technologies for decking, playgrounds, walkways, benches, fencing, landscaping and gazebos.

- **Environmentally preferred wood preservatives - US EPA Presidential Green Chemistry Challenge Awards**
- **Lifetime limited warranties - Proven performance against decay and termites**
- **AWPA standardized wood preservatives and ICC-ES building code approved**



ecolife™

Stabilized Weather-Resistant Wood

Wood that looks better and lasts longer. New environmentally preferred nonmetallic preservative system with built-in wood stabilizer and water repellant.

- **Reduces warping, cupping, cracking and splitting**
- **Less long-term maintenance with fewer callbacks**
- **Can be used in contact with aluminum**
- **Above Ground applications**
- **Less corrosive to fasteners**

Preserve®

Wood For Today's Environment

Advanced copper-and-quaternary (ACQ®) preservation system. Preserve® ACQ® treated wood is backed by 20 years of proven performance.

- **Above Ground and Ground Contact applications**
- **Approved for fresh water immersion use**
- **AWPA use: UC1, UC2, UC3A, UC4A, UC4B**
- **Preserve Plus® with water repellent also available**

The Sound Choice
Good Fences Make Good Neighbors
SUPERIOR CONCRETE PRODUCTS
Screening • Rail Fences • Soundwalls
THE INDUSTRY LEADER
NPCA
These attractive precast concrete screening walls, sound barriers and rail fences have the look of stone, brick and wood, on both sides. They are specified as the system of choice by a growing number of architects, builders, developers, contractors and municipalities throughout the United States. All products are cost-effective, maintenance-free and good looking … and made in the USA at Superior's NPCA certified manufacturing plant. Superior has a 17 year history of satisfied customers.
Superior Concrete Products is a service-oriented company that furnishes and installs SUPERIOR-STONE™, SUPERIOR COBBLESTONE™, SUPERIOR BRICK™ and SUPERIOR-WOOD™ fences.

First, Guard the Walls

A Healthy Home Must Start With Healthy Wall-Cavities.

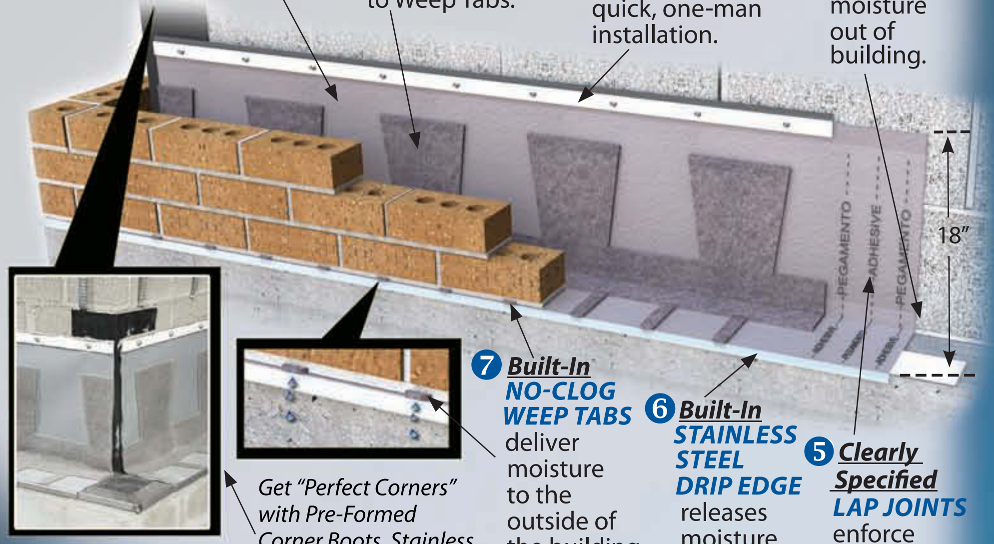
With TOTALFLASH™ In The Walls, Everyone Will Breathe Easier. Here's Why:

1 ***5 ft. Panels of* PRE-CUT FLEXIBLE FLASHING**[1]
All main components are **factory-assembled** onto easy-to-mount flashing panels.

2 ***Built-In* NO-CLOG DRAINAGE MATTE**
lets water pass, unobstructed, to Weep Tabs.

3 ***Built-In* TERMINATION BARS**
with pre-drilled holes, allow quick, one-man installation.

4 ***Built-In* EDGE DAM**
directs moisture out of building.



7 ***Built-In* NO-CLOG WEEP TABS**
deliver moisture to the outside of the building.

6 ***Built-In* STAINLESS STEEL DRIP EDGE**
releases moisture away from building.

5 ***Clearly Specified* LAP JOINTS**
enforce complete secure coverage.

Get "Perfect Corners" with Pre-Formed Corner Boots, Stainless Steel Corners & End Dams (ordered separately).

***All Screws & Adhesive Tubes included in each box of* TOTALFLASH™**

[1] Uses 40-mil polymeric, reinforced, UV stable flashing membrane, incorporating DuPont's Elvaloy® KEE polymer.

It's easy enough to halt unwanted moisture or mold inside your home, where it's visible. But the unseen cavities behind brick walls are constantly attacked by moisture. It comes from wind-driven rain & snow, or the natural condensation formed where air-conditioned interior walls meet a warm outdoors.

If that water is allowed to remain between the brickwork and the interior walls, it may spawn mold-growth, or even weaken the structure itself. Healing such damage--if it can be healed at all--is extremely costly. So an extra "ounce of protection" at the start is definitely worth a "ton of cure" later.

Our patented TOTALFLASH™ is the only wall-drainage system that combines all of the most effective modern moisture-expulsion methods, providing the finest long-term reliability. In fact, it's so ingeniously designed that some homeowners say they hate to hide it behind the brickwork. Yet this supreme, "all-in-one" guardian costs far less than installing each of its moisture-defenses separately.

Choosing **TOTALFLASH's** multiple moisture-controls can mean a longer, healthier life for your home's elegant brick walls. Not to mention the people who live inside them.

Strength Meets Versatility

Introducing LiteSteel™ beam. A perfect combination of the strength of steel and ease of use of wood.

Simplify your project and your life with LiteSteel beam (LSB®). Available directly from your local pro-dealer, LSB eliminates frustrating delays and saves time and money.

We call it LiteSteel beam for a reason; skip the crane for easy hand placement. LSB is on average 40% lighter than hot-rolled steel beams or engineered wood, but with the same load-bearing capacity. Plus there are no special tool requirements to cut, drill or fasten LSB. It's just easier to work with—Period.

Specify LSB in your next new construction or remodeling project and get introduced to quicker, easier installation and lower installed cost.

LSB LiteSteelbeam®

Visit www.LiteSteelbeam.com/builder or call 1-877-285-2607.

Reinvention 2009
Designing For The Future
hanley▲wood

SEPTEMBER 14–16, 2009
FAIRMONT OLYMPIC HOTEL
SEATTLE, WASHINGTON

the new, new reality

EXPANDING THE ARCHITECT'S ROLE THROUGH
OUTREACH, INNOVATION & COLLABORATION

When will the economy get better?

Or will it—heaven forbid—get worse? So much of what we felt we knew is unknown to us now. The model for nearly everything you do is being rewritten. Leaner and smarter staffs, more productive and entrepreneurial collaborations with other people and other companies —these are the orders of this new day. It's not just "more with less," it's also "more with more"—more complexities, risk, and innovation than you ever thought possible.

The Safety Boot® is the original, OSHA compliant, third party tested and certified guardrail base that can be used throughout construction including drywall. Safety Boots quickly anchor into most surfaces including concrete. Building out of rails and posts is fast and easy with construction grade 2x4's. For stilt and ladder operations, simply add the certified Safety Boot Tall Guardrail Brace. When the job is done, use them again at the next project!

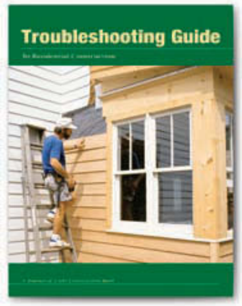
Hard to find BOOKS for Builders



Troubleshooting Guide to Residential Construction
The best way to fix a construction defect is to make sure it doesn't happen in the first place! This book shows you how to avoid (and solve) just about every costly construction problem you'll encounter. It covers foundations, flashing, retaining walls, chimneys and flues, moisture problems, framing, insulation, paints and coatings, air quality, siding, and much more.

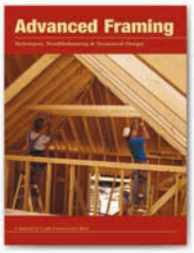
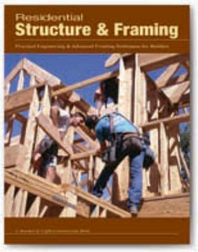
Hard to find BOOKS for Builders



Advanced Framing
This book gives you 46 of the best framing articles ever published in *The Journal of Light Construction*. Written by hands-on experts, this book covers tools; building layout; floor, wall, and roof framing; engineered lumber; energy details; and more. Over 250 photos and illustrations.
Item# AF008. . . . . $34.95



Residential Structure & Framing
This hands-on guide explains how to calculate loads, size joists and beams, and tackle many of the common structural problems faced in custom construction – including cantilevered floors, complex roof structures, tall window walls, plus seismic and wind bracing.
Item# SF499. . . . . $34.95

Home elevators.
Just another crazy idea in home building.

With the price of land going up and the average size of homes increasing, a new standard in home building is on the rise. Now is the perfect time to start building a ThyssenKrupp Access home elevator into your home projects. Because soon, the only thing crazy about home elevators will be building without them. Call **800-829-9760, ext. 9576** to find out more.

Propane. Enough green to get you over 100 points closer to the standard.

	MAXIMUM POINTS FROM PROPANE	MINIMUM POINTS TO MEET STANDARD
Energy efficiency: propane heating, cooling, hearth, and water heating systems are extremely efficient	53	30
Indoor environmental quality: propane furnaces, water heaters, and direct-vent appliances earn points	20	36
Water efficiency: propane tankless and tank water heaters can meet or exceed requirements	3	14
Resource efficiency: propane tanks contain more than 70% recycled steel and brass; gas line scraps are recyclable	8	45
Lot design, preparation and development: underground and above-ground propane tanks provide installation flexibility and don't require much soil turnover	10	39
Operation, maintenance, and homeowner: propane safety and operation materials are readily available	7	8
Additional points from selections of your choice	–	50
TOTALS	**101**	**222**

Build with propane and earn over 100 points toward the National Green Building Standard.

These days, homebuyers are looking for ways to help save energy and protect the environment. When you build with propane, you'll provide your customers with an efficient, reliable, clean energy that's available right now. The proof is in the National Green Building Standard. With propane, you can earn over 100 points just for making a smart energy choice. And with the new Stimulus Package, there's even more incentive to recommend energy-efficient propane appliances to your clients. For more on all the green and economical benefits of propane, visit buildwithpropane.com/stimulus.
